

# Driving Automation Through Connectivity in the Utilities Industry

## Digi Connectivity — high performance solutions for public infrastructures

The utilities sector accounts for more than \$1.5 trillion in the United States economy<sup>1</sup>. Keeping this industry connected through secure serial-to-Ethernet equipment is critical to the

public's safety and well-being. Digi meets the demand for connectivity solutions in this highly regulated space by providing secure, flexible integration and safety in harsh conditions.

<sup>1</sup> Murphy, C (2021, March 18). Utilities Sector/Fundamental Analysis. Investopedia.

# Featured Products

## Next generation of secure serial servers, equipped with intelligent defaults for easy deployments

### Digi Connect® EZ

- 1, 2, 4, 8, 16, or 32 software-selectable RS-232/422/485 serial ports
- 10/100/1000 Ethernet (dual-Ethernet on 2- and 4-port)
- Built-in Digi TrustFence® for device security
- Mass configuration with [Digi Navigator™](#) and [Digi Remote Manager®](#)

## Battery-powered remote telemetry unit with seamless cellular connectivity

### Digi Connect® Sensor XRT-M

- Multiple I/O for connecting a wide range of sensors
- Ideal for environments where power is not easily available
- Deploys in minutes
- Manage with [Digi Axess](#)

## Centrally manage routers, firewalls, servers, and other critical IT infrastructure

### Digi Connect® IT

- Digi CORE LTE modems support Global LTE Cat 4 cellular connectivity with 3G / 2G fallback
- Power supply kit provides dual replaceable redundant internal power

Digi TrustFence® easily integrates device security, device identity, and data privacy capabilities into your product design. Digi TrustFence provides security for IoT devices that can grow and adapt with new and evolving threats.

Digi Remote Manager® allows networks and the people that manage them to work smarter from any device.
