# Top 5 Reasons Why FedEx Chooses Digi

Digi devices help to deliver over 3 billion packages per year

1 Reliable Service
As supply chain issues emerged during COVID-19, connectivity among systems was never more important.

2 Excellent Life Cycle
Digi solutions consistently run for years, resulting in long product lifespans.

3 Harsh Environment Tested
Digi stands up and performs in extreme hot and cold conditions.

4 Aging Device Solutions
Digi provides solutions to help extend device life cycles through technology transitions. Products like **Digi Edgeport®** seamlessly extend the life and enhance the functionality of existing serial equipment.

5 Dedicated Support
Digi engineers collaborate with internal teams to keep downtime to a minimum through issues or updates.

> "We've stuck with Digi for 20 years because they continue to solve our complex challenges. They win the solution space when vetting against other options."
