

# Seamless Connectivity and Control

**Digi Axxess Mobile** brings speed and visibility to remote monitoring.

Get instant control, alerts, and secure remote access — so you can stay ahead, act fast, and prevent costly downtime. Digi Axxess Mobile, designed specifically for use with our industrial automation solutions — [Digi Connect® Sensor XRT-M](#) and [Digi Z45 Industrial Controller](#) — puts the power in your pocket, ensuring seamless access to critical network insights.

## Key Features

- **Effortless setup:** Deploy Digi devices in minutes and start tracking key metrics immediately
- **Seamless monitoring:** View instant insights to make faster, smarter decisions
- **Instant alerts:** Act before issues escalate with automatic push notifications
- **Remote control:** Change settings, diagnose issues, and restore operations — right from your phone
- **Secure access:** Authenticated user access with secure VPN connectivity to keep your network safe

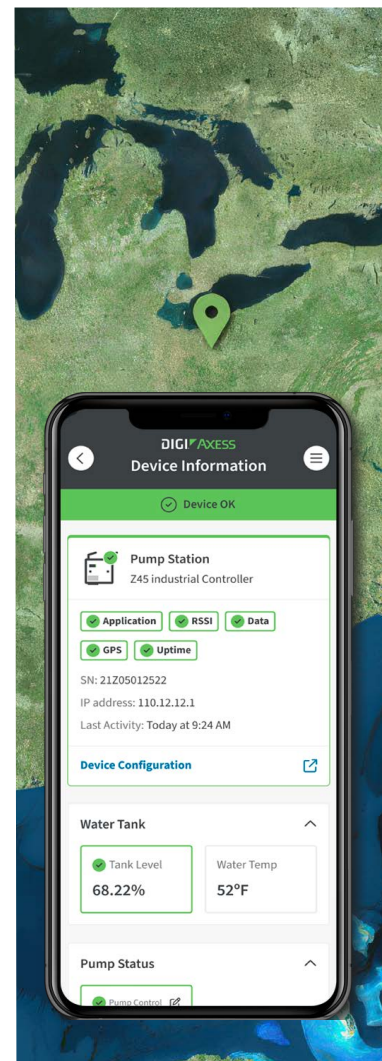

## Who Is It For?

If you manage critical infrastructure, this app is built for you.

- **Facility managers:** Stay on top of operations, without being on-site
- **Industrial engineers:** Optimize performance with instant data
- **Field technicians:** Respond instantly, reduce downtime, and work smarter

## Stay Ahead. Stay In Control.

Take the guesswork out of infrastructure monitoring. Digi Axxess keeps you connected, in control, and ahead of potential problems.

Get the [Digi Axxess Mobile app](#) today! **Take control from anywhere!** →
