

A large photograph of a smiling male server with curly hair, wearing a brown t-shirt and a blue striped apron, holding a tablet. In the background, a female server is working at a counter in a restaurant setting.

Transforming the Connectivity of the Hospitality Industry

Digi Connectivity Is Flexible, Fast, Easy and Offers Scalable Solutions

The hospitality industry has experienced a dramatic rebound through innovation and enhanced customer experience. Digital customer experiences have become the norm, which makes connectivity critical to the success of travel, hotels and

restaurants. Leaders in the hospitality industry rely on Digi connectivity solutions to support back-of-the-house network needs, customer Wi-Fi, POS systems and more - securely and reliably - as they transform and scale their operations.

Featured Products

Digi Connect® EZ

Next generation of secure serial servers, equipped with intelligent defaults for easy deployments.

- 1, 2, 4, 8, 16, or 32 software-selectable RS-232/422/485 serial ports
- 10/100/1000 Ethernet (dual Ethernet on 2 and 4 port)
- Built-in Digi TrustFence® for device security
- Mass configuration with [Digi Navigator™](#) and [Digi Remote Manager®](#)

Digi AnywhereUSB® Plus

Connect USB peripheral devices anywhere on a Local Area Network (LAN) without a locally-attached host computer.

- 2, 8, and 24 port options
- Ideal for connecting USB devices over the network in virtualized environments
- AnywhereUSB Plus 8 and 24 are rack mountable and offer two power supplies and Ethernet connections
- All models support multi-host connectivity, by individual USB port or grouped independently

Digi Connect® IT

Resilient out-of-band (OOB) Management solutions.

- Centrally manage routers, firewalls, servers, and other critical IT infrastructure
- Digi CORE LTE modems support Global LTE Cat 4 cellular connectivity with 3G / 2G fallback
- Power supply kit provides dual replaceable redundant internal power

Digi Edgeport®

Easy out-of-the-box solution for I/O Expansion.

- Ideal for peripheral device connectivity in retail stations, self check-out systems, kiosks, ATMs and more
- USB plug-and-play alternative to PCI cards
- Software selectable MEI and industrial models
- Affordable external user-installable solution

Explore Connectivity Solutions now with [Digi LifeCycle Assurance](#).

Digi TrustFence® easily integrates device security, device identity, and data privacy capabilities into your product design. Digi TrustFence provides security for IoT devices that can grow and adapt with new and evolving threats.

Digi Remote Manager® allows networks and the people that manage them to work smarter from any device.
